- **Cut Down On Harmful Salt This Winter!**  
MELTDOWN MAGIC can MELT UP TO THE FIRST 3/4 INCH OF SNOW!
- **100% Natural**
- **Greener...and CLEANER**  
Salt is harmful to our soil, water, plants and animals. With MELTDOWN MAGIC, you can cut winter salt use UP TO 50%.

**LESS SALT-TRACKING  
INSIDE BUILDING!**

Applied by Our Pre-Storm Team\*, MELTDOWN

**MAGIC Penetrates Deep...**  
...into the pores of asphalt or concrete, forming an ice-busting barrier. MELTDOWN MAGIC keeps working in extreme cold. (Regular salt stops working around 20° F!)

\*Application available in Lehigh Valley, PA only. For bulk purchase, see below.

**MELTDOWN Magic** NOW AVAILABLE for bulk rate purchase outside the Lehigh Valley.

5,000 gallon maximum bulk delivery. Lesser volumes available.  
100% safe. No HazMat license required.

- Line Striping
- Infrared Patching
- Rubberized Crack Repair

## FACE THE FACTS:

No wonder asphalt breaks down. It's bombarded year-round with a destructive barrage of blazing heat, freezing ice, sun-induced oxidation, water seepage, salt, oil, gas and pounding vehicles. Your best defense?

Seal out these anti-asphalt elements and **EXTEND THE LIFE OF YOUR ASPHALT.**

**Cross Section Unsealed**  
Oxidation dries out and deteriorates asphaltic binder. Pavement loses flexibility and small cracks develop. Water, chemicals, etc. penetrate surface and pavement deterioration rapidly progresses.

**Cross Section Sealed**  
Mik-A-Seal® pavement sealer seals out the damaging effects of oxidation and the elements, greatly extending the service life of the pavement while enhancing the appearance.

## Blacktop Sealing Corp.

Since 1971...Trusted for **VALUE**

- Weatherproofs
- Beautifies
- Prevents Ugly, Destructive Oxidation & Deterioration
- Cost-Effective

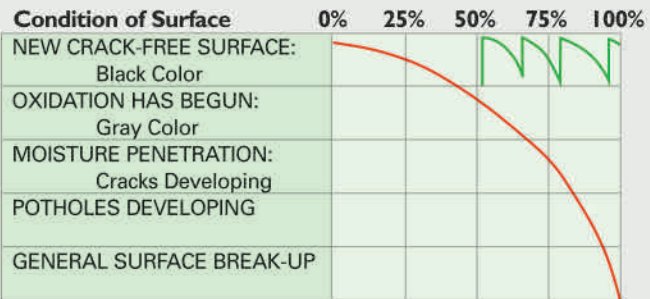

### TIMING IS IMPORTANT, TOO!
